Epoxy-coated finish supports use in dry, moist, and kitchen environments.

✓ **Warranty Coverage**
It includes a 90-day limited replacement warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series 5-Shelf Kit with Post is designed for commercial kitchen storage, walk-in coolers, and food preparation areas. Constructed from coated metal wire steel with an epoxy finish, the unit features a freestanding structure with adjustable and stationary shelving options. The green finish supports organized storage identification within foodservice environments.

The shelving unit measures 48" (L) x 14" (W) x 72" (H). It includes five shelves supported by 72" posts and is designed for use in dry, moist, and walk-in environments. The vented wire shelf design supports airflow around stored items in commercial kitchen storage applications.

This shelving system has a total load capacity of 1500 lbs, with each shelf rated at 300 lbs. The unit includes 20 pairs of split sleeves for shelf positioning and assembly. Assembly is required for installation in storage and kitchen organization areas.

The unit is NSF Certified and designed for use in commercial kitchen environments requiring organized storage systems. It includes a 90-day limited replacement warranty by the manufacturer.
