PRODUCT OVERVIEW

The PolarBox Series Walk-In Cooler is a self-contained refrigeration unit designed for commercial cold storage, ideal for restaurants, cafes, and food service operations. Constructed from 24-gauge white galvanized steel, it offers durable structural strength. The 4-inch polyurethane insulation with R-28 thermal resistance maintains consistent interior temperatures, while the solid swing door with keyed lock provides controlled access to stored items.

The unit includes a top-mounted condensing unit and evaporator operating on R-448A refrigerant with 1-phase, 208/230 V, 60 Hz power supply for reliable cooling. Designed for indoor and outdoor use, it features a self-closing, flush-mounted door that minimizes energy loss. Modular cam-lock panels with tongue & groove design allow easy assembly and maintenance. The dimensions of the unit are 10 ft (W) x 10 ft (D) x 7 ft (H).

This commercial walk cooler is UL Listed US, NSF Listed, and DOE certified for safety and compliance. It comes with a 10-year panel warranty, 1-year door parts, 2-year compressor & parts, and 1-year labor on the refrigeration unit. Without a floor, the cooler is suitable for various installation surfaces, with CFC & HFC-free materials ensuring environmentally responsible construction. Single-door, hardwired, swing-style operation completes the design for practical commercial use.
