WARRANTY
1 Year Warranty

SPECIAL FEATURES

- Large Display Area**
 The 21.4 cu ft interior holds a wide variety of baked goods across multiple glass shelves, reducing how often staff need to restock during peak service hours.
- Straight Glass Visibility**
 The straight tempered glass front gives customers and staff an unobstructed view of displayed items, helping food service operators present pastries and chilled goods clearly.
- Three Key Certifications**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant ratings confirm the unit meets established safety, sanitation, and energy efficiency requirements for commercial food display use.
- Energy-Conscious Refrigerant**
 R-290 refrigerant operates with a low global warming potential, supporting a commercial kitchen's effort to align with current environmental and regulatory standards.
- Standard Electrical Draw**
 Running at 110V, 60 Hz, and 520 watts with a 7.49-ampere draw, this case connects to typical commercial kitchen electrical systems without requiring dedicated high-amperage circuits.
- Efficient LED Interior Lighting**
 LED lighting illuminates displayed baked goods with minimal heat output, helping maintain stable cabinet temperatures throughout a full service shift.

PRODUCT OVERVIEW

The Frigomax Series 70.9" refrigerated bakery display case is a serve-over counter unit designed for bakeries, cafes, delis, and restaurants that need a clean, accessible way to present refrigerated and dry baked goods to customers.

Built with a straight tempered glass front and intermediate glass shelves, this freestanding unit offers 21.4 cubic feet of display capacity, giving food service operators generous room to arrange pastries, cakes, sandwiches, and similar items at eye level. The stainless steel construction supports the sanitation standards expected in a commercial kitchen environment.

The cabinet maintains a temperature range of 32 to 41 degrees Fahrenheit and runs on R-290 refrigerant, a low-GWP choice suited to modern commercial kitchen compliance requirements. At 110 volts, 60 Hz, and 520 watts with a draw of 7.49 amperes, the unit is compatible with standard commercial electrical infrastructure. LED lighting illuminates the interior display without adding significant heat.

Measuring 33.5 inches (D) x 70.9 inches (W) x 48.4 inches (H), the case fits along a service counter or front-of-house wall without requiring major floor plan changes. It carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, meeting key regulatory benchmarks for commercial food display equipment. A 1-year warranty is included with each unit.
