SPECIAL FEATURES

- ✓ **Precision Grind Settings**
100 grind settings support espresso preparation and beverage workflows.
- ✓ **Flat Burr Design**
64 mm flat burrs support grinding consistency in coffee preparation.
- ✓ **Touchscreen Controls**
LED touchscreen interface supports programmable grinder operation.
- ✓ **Durable Construction**
Die-cast aluminum housing and aluminum grinding chamber support routine use.
- ✓ **Anti-Static System**
Anti-static technology supports reduced coffee residue during grinding.
- ✓ **Warranty Coverage**
Includes a 1-year warranty by the manufacturer for grinder use.

PRODUCT OVERVIEW

The ChefPro Series espresso grinder is designed for coffee preparation in cafés, beverage stations, and commercial kitchen setups requiring precision grinding. It is constructed from metal with a black finish and features a premium die-cast aluminum housing. The unit measures 14.4" (L) x 8.9" (W) x 16.1" (H), supporting countertop placement.

This commercial-grade grinder includes 64 mm flat burrs made from SUS420 food-grade stainless steel. It features 100 grind settings with touch control and programmable operation, supporting grind adjustment for espresso preparation. The cutting-edge LED touchscreen interface supports control access during beverage preparation.

The grinder operates on 120 V electric AC adapter power with 350 W output. It includes a full aluminum grinding chamber, anti-static technology, an 18 oz hopper, and a 1.1 lb capacity. Included components are a chamber, hopper, and stainless steel cup.

This unit is categorized as an espresso grinder for beverage preparation workflows. It is intended for home use and includes a 1-year warranty by the manufacturer.
