1 Year Warranty

SPECIAL FEATURES

- Clear Curved Viewing**
 The curved double tempered glass front gives customers an unobstructed, wide-angle view of displayed pastries, supporting merchandise visibility in any commercial kitchen or bakery service counter.
- Easy Front Cleaning**
 The front glass panel swings up for cleaning access, allowing staff to reach the interior quickly without dismantling the display a practical advantage in high-turnover bakery and café settings.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets recognized safety, sanitation, and energy standards for regulated food service and restaurant environments.
- Consistent Chilled Hold**
 A 36°F to 46°F operating range keeps cream pastries, cakes, and other refrigerated bakery items at safe serving temperatures throughout a busy service day.
- Modest Power Draw**
 At 400 watts and 4.2 amperes on a standard 110V circuit, the unit fits most existing commercial kitchen electrical setups without requiring dedicated high-amperage wiring.
- Covered After Purchase**
 The included 1-Year Warranty provides documented coverage that gives restaurant owners and bakery operators a defined service period following the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series 47" Refrigerated Bakery Display Case is a freestanding curved-glass display unit designed for bakeries, cafés, patisseries, and commercial kitchens that need to present chilled baked goods in an attractive, temperature-controlled environment.

The cabinet holds 13.1 cubic feet of interior space, finished in stainless steel, and maintains a temperature range of 36°F to 46°F suitable for storing cream-filled pastries, cakes, and other refrigerated bakery items that require consistent cold holding. Automatic defrost keeps the interior frost-free without manual intervention, and the R-290 refrigerant is an environmentally conscious choice aligned with current commercial kitchen standards.

The curved double tempered glass front panel gives customers a clear view of displayed items from multiple angles. The front glass swings up for easy cleaning access, allowing staff to wipe down the interior without disrupting the display. Leg levelers are included to stabilize the unit on uneven floor surfaces common in restaurant and bakery environments.

LED lighting illuminates the interior to highlight displayed items clearly. The unit draws 4.2 amperes and 400 watts at 110V/60Hz, keeping operational power consumption modest for a display case of this footprint. Overall dimensions are 26.8" (D) x 47.2" (W) x 47.2" (H), making it a workable fit for front-of-house counters and service areas. This unit is ETL Listed, ETL Sanitation Listed, and DOE Compliant, and carries a 1-Year Warranty.
