SPECIAL FEATURES

- Wider Display Capacity**
 Two sections and a 45 cu ft capacity offer expanded merchandising space in commercial spaces.
- Clear Product Viewing**
 Sliding glass doors make items visible across retail environments, making this unit a practical glass door merchandiser refrigerator.
- Wide Temperature Range**
 -33°F to 40°F temperature range supports diverse chilled products.
- Accessible Design**
 Bottom-mounted compressor places components in an easy-to-reach area for maintenance.
- Warranty Coverage**
 1 year parts & labor, 1 year compressor warranty provides coverage.
- Durable Construction**
 Stainless steel interior and black exterior finish with aluminum back create a solid cabinet structure for a commercial merchandiser refrigerator.
- Flexible Storage Layout**
 Ten adjustable PVC-coated shelves allow varied product arrangement for merchandising needs.
- Bright Cabinet Lighting**
 LED lighting enhances visibility throughout both sections of the merchandiser fridge.
- Compliance Ready**
 ETL Sanitation Listed and cETLus certifications indicate adherence to safety and sanitation standards.

PRODUCT OVERVIEW

The IceVault Series IVMRS5345C Commercial Merchandiser Refrigerator is designed for retail and commercial spaces needing a two-section unit with 2 doors for broader display use. Its 45 cu ft capacity accommodates a variety of chilled products. The stainless steel interior, black exterior finish, and aluminum back create a sturdy cabinet measuring 79 in (H) x 53 in (W) x 32 in (D). It operates using R-290 refrigerant and a 1/2 HP system.

Sliding glass doors with left and right hinges provide clear visibility across both sections, making it a reliable glass door merchandiser refrigerator. The self-closing feature limits excess open-door time, and the keyed lock offers restricted access in busy foodservice settings. Ten adjustable PVC-coated shelves support flexible product arrangement, while LED lighting improves clarity throughout the cabinet for daily retail use.

This merchandiser fridge runs on 115 V, 6 A, 60 Hz, and 1 Phase power with a NEMA 5-15P plug for easy installation. Auto-defrost manages frost buildup, and electronic controls allow straightforward temperature adjustment. The bottom-mounted compressor keeps components accessible, and the freestanding design allows versatile placement in retail spaces.

ETL Sanitation Listed and cETLus certifications reflect adherence to safety and sanitation standards. This unit is a practical commercial merchandiser refrigerator for broad product display with reliable daily performance.
