SPECIAL FEATURES

- Multi Function Use**
 The cabinet supports food warming, dough proofing, dehydrating, and gentle thawing for commercial kitchen and catering applications.
- Pan Compatibility**
 Supports 1/1, 1/2, and 1/3 hotel pans along with 13-inch pizza storage for versatile food service operations.
- Safety Features**
 Auto shut-off, overheat protection, and anti short circuit design support safe operation in commercial kitchen use.
- Controlled Heating**
 A 360° hot air circulation system and adjustable smart thermostat maintain temperatures from 86°F to 185°F.
- Visibility Design**
 Tempered glass dual doors with 5 mm thickness provide clear visibility of stored food in foodservice environments.
- Certified Equipment**
 The unit is UL Certified and TUV Certified and includes a 1-year warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Countertop Heated Holding Cabinet is designed for restaurants, catering services, buffets, food trucks, and school cafeterias requiring controlled food holding and warming. This stainless steel unit (304 blued stainless steel) features a 133 qt capacity with a countertop installation design. It measures 16.3" (W) x 24.2" (L) x 28.74" (H) and includes a tempered glass dual-door structure for visibility and access.

This electric heated holding cabinet operates on 120 V with 900 W power and uses a 360° hot air circulation heating system. The adjustable smart thermostat supports a temperature range of 86°F to 185°F for warming, dough proofing, dehydrating, and gentle thawing applications in commercial kitchen environments.

The unit includes five trays and five adjustable mesh rack shelves designed to support 1/1, 1/2, and 1/3 hotel pans along with 13-inch pizza capacity. It features 5 mm thick tempered glass doors with left and right hinge locations for flexible access in foodservice operations.

This countertop heated holding cabinet includes vacuum insulation for thermal efficiency and energy-saving operation. It incorporates safety features such as auto shut-off, overheat protection, and anti short circuit design. The unit is UL Certified and TUV Certified and includes a 1-year warranty by the manufacturer.
