

GW-100 Carousel Glasswasher Quick Setup Instructions

WARNING: Electrical and plumbing connections need to be made by a licensed service person and comply with all Federal, State and Local Health, Electrical, Plumbing and Safety codes.

Connect L1 and L2 leads to the power block and ground wire to ground lug.

Connect water lines (hot 140F/160F) and (cold 75F) to water solenoid valves.

Connect the drain hose to the FLOOR DRAIN. If floor drain is not available connect to the wall. Floor drain must have a (1 inch) air gap between the drain hose and the floor drain.

Level dishmachine by adjusting leveling legs. Dishmachine must be level front and back to ensure proper performance.

Flip power "on-off/flush" switch to "ON" position. Wash tank will automatically fill.

Adjust heater thermostat to 140F.
