- ✓ **Reliable Temperature Management**

Thermostatic control maintains a steady temperature range from 85°F to 185°F.
- ✓ **Compatible Electrical Setup**

Operates on 120 V, 1 Phase, 13.1 A, and 1580 W for straightforward installation.
- ✓ **Warranty Support**

A 1-year limited warranty offers coverage during regular operation.

PRODUCT OVERVIEW

The ChefPro Series CP36FWDC Countertop Display Case is designed for bakeries, cafés, convenience counters, and foodservice operations that require a heated display with strong visual appeal. Built with stainless steel and manufactured in China, this freestanding unit fits comfortably on standard countertops while presenting products through its clear glass enclosure.

Measuring 25.4 in (H) × 36 in (W) × 19 in (D), it provides ample merchandising space without occupying excessive counter area. The display features 3 adjustable shelves for flexible product arrangement, LED lighting for improved visibility, and thermostatic control that maintains temperatures between 85°F and 185°F.

Operating on 120 V, 1 Phase, and 1580 W with a NEMA 5-15P plug, it integrates easily into commercial setups. ETL Certified, the unit meets commercial electrical and safety requirements, and comes with a 1-year limited warranty coverage during standard use.
