PRODUCT OVERVIEW

The Medal Equipment 48" worktop freezer is a two-door, stainless steel unit built for commercial kitchens that need frozen storage and a usable prep surface in one footprint. It suits restaurants, cafes, and other food service operations where counter space is limited and quick access to frozen ingredients matters.

The cabinet holds 12.9 cubic feet across two solid doors with a right or left hinge location and recessed handles. Self-closing doors with a greater than 90 degree stay-open feature keep hands free during loading, while the magnetic door gaskets help maintain the seal. Inside, two plastic coated steel shelves sit within a 201 stainless steel interior measuring 44.25 inches wide, 21 inches deep, and 27 inches high.

Digital temperature control holds the interior between -10°F and 10°F, and auto-defrost reduces manual maintenance. The unit runs on 115 volts, 60 hertz, single phase power through a NEMA 5-15P plug and uses R290 refrigerant. Four 4-inch casters allow the freezer to be moved for cleaning. The exterior measures 48.5 inches wide, 30.5 inches deep, and 41.5 inches high, with a shipping weight of 260 pounds and a product weight of 172 pounds.

The freezer is cETLus Listed and ETL Sanitation Listed for commercial food handling. It includes a 2-year warranty by the manufacturer.
