- ✓ **Adjustable Positioning**  
Four adjustable legs with leveling feet and 6-inch leg height support installation on different floor surfaces.
- ✓ **Warranty Coverage**  
It includes a 1-year parts and labor warranty by the manufacturer.

## PRODUCT OVERVIEW

The ProKitchen Series Ice Storage Bin is designed for commercial kitchens, beverage stations, restaurants, and foodservice operations, particularly in space-constrained kitchens. It features a 375 lb ice storage capacity for holding ice used during food preparation and beverage service. The unit is constructed from 304 stainless steel with stainless steel and plastic molding construction. It measures 30.7" (L) x 32.56" (W) x 38.78" (H) and features a freestanding design.

The ProKitchen Series Ice Storage Bin includes a lift-up door with a spring-loaded mechanism that stays open when fully raised. The interior is made from polyethylene and is specified as sanitary for ice storage applications. Foamed-in-place polyurethane insulation is incorporated into the cabinet structure. A rear drain hole is included to support drainage requirements in commercial kitchen environments.

The ProKitchen Series Ice Storage Bin features four adjustable legs with adjustable and leveling feet. The 6-inch legs support installation on a variety of floor surfaces. The freestanding design is suitable for placement alongside ice machines and beverage service stations. The stainless steel exterior is constructed using 304 stainless steel for foodservice applications.

The ProKitchen Series Ice Storage Bin is cETLus Listed, ETL Sanitation Listed, and conforms to UL and NSF standards. Included accessories consist of an ice scooper, water hose, and water drain hose. The bin is intended for space-constrained kitchens and includes a 1-year parts and labor warranty by the manufacturer. The sanitary interior and lift-up access support daily foodservice operations.
