1 Year Parts & Labor

SPECIAL FEATURES

- High Heat Output**
The unit delivers 95,000 BTU/hr total output suitable for high-temperature wok cooking in a commercial kitchen.
- Spill Reduction Design**
It features a gradual slope structure to reduce spill-over during high-heat cooking operations.
- Certified Standards**
It is cETLus Listed, ETL Sanitation Listed, and conforms to NSF standards for commercial use.
- Single Burner System**
It includes 1 cast iron burner with 16-inch design, 18 jets, and 13-inch ring diameter.
- Stable Installation Base**
It includes 4 stainless steel legs with 15-inch size for placement in commercial kitchen environments.
- Warranty Coverage**
It includes a 1-year warranty on parts and labor from the manufacturer.

PRODUCT OVERVIEW

The ProKitchen Series Gas Wok Range is a commercial kitchen cooking unit designed for restaurants, hotels, and Asian cooking stations requiring high-heat wok preparation. It is constructed with stainless steel material in a silver finish and includes stainless steel legs for structural support in continuous commercial kitchen operations. The unit operates on gas with a total output of 95,000 BTU/hr.

The cooking system includes 1 burner with cast iron burner material and a 16-inch burner design featuring 18 jets and a 13-inch ring diameter. It supports standby stainless steel pilot ignition type and is configured for high-output wok cooking in commercial kitchen environments.

The unit incorporates a gradual slope design to reduce spill-over during cooking, along with a full-width crumb tray for residue collection. Gas type is convertible, with a 3/4" NPT rear gas connection supporting installation requirements across commercial kitchen setups.

The overall unit measures 18 in (W) x 20.75 in (D) x 34 in (H) and weighs 71 lb. It includes 4 stainless steel legs (15 in size) for installation stability. It carries a 1-year warranty on parts and labor and complies with cETLus Listed, ETL Sanitation Listed, and NSF standards for commercial kitchen equipment.
