SPECIAL FEATURES

- ✓ **Open Display Access**
Open air design supports quick access chilled merchandising in commercial kitchen and retail food environments.

✓ **Digital Temperature Control**
Digital thermostat maintains a temperature range of 36°F to 50°F for chilled food display conditions.

✓ **Certified Compliance Standards**
cETLus, ETL Sanitation, and NSF certifications align with commercial kitchen and food safety requirements.
- ✓ **Compact Capacity Layout**
3.14 cb3 capacity supports small-format food display applications with 1 stainless steel shelf.

✓ **Glass Panel Construction**
Glass and black painted body supports visible product presentation in food retail and commercial kitchen setups.

✓ **Warranty Coverage**
It includes a 1-year warranty by the manufacturer and a 5-year compressor warranty for refrigeration components.

PRODUCT OVERVIEW

The ProKitchen Series Open Air Cooler is designed for commercial kitchen and food retail environments such as cafés, supermarkets, and grab-and-go food display counters requiring open chilled merchandising. It features a 3.14 cb3 capacity with a freestanding installation type supported by 4 casters for positioning in service and display areas.

Built with glass and black painted exterior, the unit measures 29.92" (W) x 29.41" (D) x 44.88" (H), supporting compact vertical display applications. It includes 1 stainless steel shelf with a two-step shelf type configuration for structured food placement in commercial kitchen and retail environments. The interior dimensions include 24.92" width, 19.18" depth, and 13.7" height for display organization.

The system operates on 110 V, 60 Hz, single phase power with 9.9 A current draw and 1090 W wattage. It uses R-290 refrigerant with a self-contained refrigeration system, supported by digital temperature control and thermostat. The temperature range is maintained between 36°F and 50°F, suitable for chilled open display conditions.

Foamed-in-place polyurethane insulation supports internal thermal stability. Additional features include automatic defrost, LED illumination, and night curtain for off-hour coverage. The unit operates within a maximum ambient temperature of 75°F and carries cETLus, ETL Sanitation, and NSF certifications. It includes a 1-year warranty by the manufacturer and a 5-year compressor warranty.
