SPECIAL FEATURES

- Glass Display**
 The three sliding glass doors provide visibility of stored beverages and refrigerated items for restaurant and commercial kitchen service.
- Electronic Control**
 The electronic control provides temperature adjustment within the specified range of 36°F to 50°F.
- Certified Construction**
 ETL Listed and ETL Sanitation Listed certifications are included for commercial kitchen equipment requirements.
- Adjustable Storage**
 Six adjustable epoxy-coated shelves accommodate different container sizes used in food handling and beverage storage.
- LED Interior**
 LED lighting illuminates the cabinet interior, making stored contents visible during service hours.

PRODUCT OVERVIEW

The Frigomax Series Back Bar Cooler is a commercial kitchen refrigeration unit designed for restaurants, bars, cafés, hotels, and other food service businesses that require refrigerated beverage and food storage. The cooler features a coated steel exterior in a black finish, providing a durable surface suitable for commercial environments.

It offers an 11.6 cb3 capacity, providing storage space for beverages and other refrigerated items used in food handling and service. The three sliding glass doors provide a clear view of stored contents while allowing access through the door opening. The key lock adds controlled access when the unit is not in use.

The interior includes six adjustable shelves made from epoxy-coated material, allowing different storage arrangements for various bottle, can, and food container sizes. LED lighting illuminates the interior, making stored items visible during service.

The cooler operates within a temperature range of 36°F to 50°F, making it suitable for refrigerated storage in commercial kitchen and bar settings. It uses an electronic control for temperature adjustment and monitoring.
