WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- **Black Finish**
  Black color supports identification and matches internal refrigeration components.
- **Extended Length**
  4.5 m probe length allows routing across coolers, chillers, and cold rooms.
- **Probe Type**
  Listed as a probe for sensing functions in refrigeration control systems.
- **JST Connector**
  JST connector type defines the electrical interface for compatible connections.
- **Refrigeration Use**
  Specified for commercial refrigeration including display cabinets and storage units.
- **Limited Warranty**
  Includes a 1-year limited warranty by the manufacturer as stated.

PRODUCT OVERVIEW

The Medal Equipment probe is designed for commercial refrigeration systems used in coolers, chillers, display cabinets, and cold rooms within commercial kitchen and foodservice environments. Classified as a probe, it functions as a sensing component within temperature control assemblies. The part supports maintenance and replacement of compatible refrigeration equipment.

This unit is finished in black, providing a standard appearance that aligns with internal wiring and control components. The specified color assists with identification during installation and servicing. It is intended for use across multiple commercial refrigeration applications as listed in the usage details.

The probe includes a JST connector type, defining the electrical connection for compatibility with matching control boards and wiring harnesses. It features a probe length of 4.5 m, allowing extended routing within cabinets or cold rooms. These specifications provide clear reference for positioning inside refrigeration equipment.

Manufactured by Medal Equipment, this probe is supplied as a single unit for direct installation or replacement. It is intended for use in commercial refrigeration systems across food handling and storage areas. It includes a 1-year limited warranty by the manufacturer, providing stated coverage for the defined period.
