1 Year Warranty

SPECIAL FEATURES

- Open-Air Access**
 The vertical air curtain design allows customers to reach refrigerated items without opening a door, supporting faster self-service flow in busy commercial kitchen and retail settings.
- Low-GWP Refrigerant**
 R-290 refrigerant is a low global warming potential option, aligning with current environmental standards in commercial kitchen equipment.
- Stable on Any Floor**
 Adjustable leg levelers allow the freestanding cabinet to sit level on uneven kitchen or sales floor surfaces without rocking or tilting.
- Consistent Cooling**
 Ventilated cooling circulates air across the 11.8 cu ft interior, helping maintain the 30.2 to 44.6 degree Fahrenheit temperature range across all shelf positions.
- Certified for Food Service**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets recognized safety, sanitation, and energy efficiency standards for commercial use.
- Included Coverage**
 A 1-year warranty is included with this merchandiser, providing a defined period of coverage from the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series Vertical Air Curtain Merchandiser is a freestanding open-front display unit suited for restaurants, convenience stores, cafes, and other commercial kitchen or retail food service environments that need accessible refrigerated product display.

The cabinet holds 11.8 cubic feet of refrigerated goods and maintains a temperature range of 30.2 to 44.6 degrees Fahrenheit, keeping beverages, fresh items, and prepared foods at safe holding temperatures throughout service hours. Ventilated cooling circulates air throughout the interior to support consistent temperature distribution across all shelf levels.

The unit measures 27.6" (L) x 35.4" (W) x 54.9" (H), offering a compact footprint for busy sales floors or front-of-house areas. Round side panels give the cabinet a finished appearance on the floor, and adjustable leg levelers allow stable placement on uneven surfaces. The 1.38" display size accommodates a clear view of refrigerated contents for self-service traffic.

Operating at 110 volts and 60 hertz, the merchandiser draws 13.7 amperes and uses R-290 refrigerant, a low global warming potential refrigerant choice. The unit carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, meeting established standards for commercial food service safety and energy use. A 1-year warranty is included with purchase.
