12.6" stainless steel roller supports consistent rolling for small bakery and culinary tasks.
- ✓ **Safe Operation**
Plexi roller protectors and micro-switch release provide controlled and safe dough sheeting.
- ✓ **Certified & Warranty Included**
Includes a 1-year warranty by the manufacturer covering parts and labor for commercial use.

PRODUCT OVERVIEW

The PrepMaster Series 18" Dough Sheeter is designed for small bakeries and culinary enthusiasts handling dough preparation in commercial kitchens. It features a single 12.6" stainless steel roller with seven thickness settings for versatile dough rolling. The roller includes a detachable scraper and plexi roller protectors released by a micro switch for safe operation.

Constructed from 304 stainless steel in a silver finish, it offers durability and hygiene in food handling environments. Overall dimensions are 18" (L) x 18.5" (W) x 15.4" (H), and the unit weighs 64 lb, providing a stable base for rolling dough consistently.

This electric dough sheeter operates on 120 V, 4.5 A with 220 W wattage and 0.33 HP motor power. It uses heavy-duty metal gear transmission and stainless steel IP67 controls for precise operation. The sheeter connects with a NEMA 5-15P plug.

Safety features include plexi roller protectors and micro-switch release for controlled operation. The unit includes a 1-year warranty by the manufacturer covering parts and labor.
