- ✓ **Certified Build**
cETLus Listed, ETL Sanitation Listed, ETL Listed, DOE Compliant with 2 years parts & labor and 6 years compressor warranty.

PRODUCT OVERVIEW

Platinum Frost Series Ice Cream Display Freezer by PFICDF is a commercial ice cream display freezer designed for ice cream shops, supermarkets, convenience stores, and food service operations. It features a 16 cubic feet capacity suitable for frozen dessert storage and display in commercial kitchen and retail environments.

The unit measures 60.2" (L) x 27.8" (W) x 34.4" (H) and supports freestanding installation with caster-mounted mobility. The coated steel exterior supports durability in food service environments, while the white finish aligns with standard commercial frozen display equipment layouts used in retail and food service settings.

It operates with a 2-in-1 freezer/refrigerator convertible system controlled by a mechanical thermostat. The temperature range of -15°F to 41°F supports both frozen and chilled storage conditions. The wrap-around cooling compressor system supports consistent temperature distribution across the storage and display area for commercial ice cream handling.

The unit includes a sliding curved glass door design for product visibility and access. LED lighting supports internal illumination, while removable display baskets support organized storage. It includes 360° swivel casters with brakes for mobility and positioning control. It includes a 2 years parts & labor warranty and 6 years compressor warranty by the manufacturer.
