WARRANTY

1 Year Limited Warranty

SPECIAL FEATURES

- **Stainless Steel Build**
  Stainless steel material supports routine cleaning and repeated use in commercial kitchen refrigeration areas.
- **Silver Finish**
  Silver color aligns with stainless steel appliances for a uniform look across restaurant equipment.
- **Door Hinge Type**
  Defined as a door hinge for mounting or replacing door hardware on compatible units.
- **Up-Left Orientation**
  Up-left hinge type matches doors that open toward the upper left on reach-in refrigerators and freezers.
- **Refrigeration Usage**
  Specified for reach-in refrigerators and freezers used in foodservice and commercial kitchen settings.
- **Limited Warranty**
  Includes a 1-year limited warranty by the manufacturer for documented service coverage.

PRODUCT OVERVIEW

The Medal Equipment door hinge is designed for reach-in refrigerators and freezers used in commercial kitchen environments such as restaurants, catering units, and foodservice storage areas. It functions as a door hinge type component for mounting and replacing door hardware on compatible equipment. The design supports daily door movement during routine food handling tasks.

This hinge is constructed from stainless steel, forming a rigid structure suited to repeated opening and closing cycles. The metal material aligns with common commercial kitchen hardware standards and supports regular cleaning schedules. The silver color matches stainless steel refrigeration equipment, maintaining a consistent and neutral appearance across installed units.

The hinge features an up-left hinge type, indicating the door opens toward the upper left side when installed. This orientation supports proper positioning on reach-in refrigerators and freezers designed for this swing direction. The defined hinge type assists technicians and maintenance staff during installation, servicing, and replacement procedures.

Manufactured by Medal Equipment, this component serves as a dedicated replacement or fitting part for compatible refrigeration equipment. It is supplied for single-unit installation and aligns with standard door hardware used in foodservice storage. It includes a 1-year limited warranty by the manufacturer, providing stated coverage for the specified period.
