WARRANTY
1 Year Warranty

SPECIAL FEATURES

- ✓ Clear Straight View**
 The straight glass front gives customers and serving staff an unobstructed sightline across all 37.6 cubic feet of displayed bakery items.
- ✓ Low-GWP Refrigerant**
 R-290 refrigerant is a hydrocarbon option with a low global warming potential, supporting commercial kitchen sustainability goals without sacrificing cooling performance.
- ✓ Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the case meets established safety, sanitation, and energy efficiency requirements for commercial food service.
- ✓ Gentle Gravity Cooling**
 The gravity coil system circulates cold air without a forced fan, helping preserve the texture and moisture of delicate pastries and baked goods held between 30.2 and 41 degrees Fahrenheit.
- ✓ Easy Plug-In Setup**
 Operating at 110V, 60 Hz and drawing 690 watts, this freestanding unit connects to a standard commercial kitchen circuit with no special electrical work required.
- ✓ Covered After Purchase**
 The included 1-year warranty provides documented coverage for the unit, giving buyers a clear service reference after installation in a restaurant or bakery.

PRODUCT OVERVIEW

The Frigomax Series dry and refrigerated bakery display case is a freestanding serve-over counter unit designed for commercial kitchens, bakeries, delis, and restaurants that need a spacious, temperature-controlled display for fresh and baked goods.

With a 37.6 cubic foot interior and a straight glass front, this case gives staff and customers a clear, unobstructed view of displayed items. The unit spans 101.6 inches wide by 44.5 inches deep by 46.9 inches tall, making it a strong fit for front-of-house counters in high-traffic food service environments.

The gravity coil cooling system maintains a temperature range of 30.2 to 41 degrees Fahrenheit, keeping refrigerated bakery items at safe holding temperatures without fan-forced airflow that could dry out delicate pastries or breads. R-290 refrigerant, a low-GWP hydrocarbon option, powers the refrigeration circuit.

This plug-in unit operates at 110 volts, 60 Hz, drawing 9.2 amperes and 690 watts, allowing straightforward installation on a standard commercial kitchen circuit. ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets recognized safety, sanitation, and energy standards. A 1-year warranty is included with purchase.
