WARRANTY

1 Year Warranty

SPECIAL FEATURES

✓ Large Display Capacity

The 21.9 cu ft interior accommodates a wide variety of refrigerated bakery items, reducing how frequently staff need to restock during busy service hours.

✓ Easier Daily Cleaning

The swing-up front glass panel provides direct access to the interior surfaces, reducing the time and effort required for routine cleaning in a commercial kitchen setting.

✓ Standard Electrical Fit

Running at 110V, 60Hz and 660 watts, the display case connects to a standard commercial circuit without requiring dedicated high-voltage wiring.

✓ Safe Holding Temperature

A temperature range of 36°F to 46°F keeps chilled pastries, cakes, and sandwiches within safe food-handling parameters throughout the display period.

✓ Certified for Commercial Use

ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets recognized food-service safety and energy standards for restaurant and bakery environments.

✓ Included Warranty Coverage

A 1-year warranty is included with each unit, providing a defined period of manufacturer coverage for a commercial kitchen purchase of this type.

PRODUCT OVERVIEW

The Frigomax Series 59" Refrigerated Bakery Display Case is a freestanding straight-glass display unit designed for bakeries, cafes, patisseries, and food-service operations that need to present chilled baked goods attractively while maintaining safe holding temperatures in a commercial kitchen.

The cabinet holds 21.9 cubic feet of interior space and maintains a temperature range of 36°F to 46°F, making it suitable for displaying pastries, cakes, sandwiches, and other refrigerated bakery items. Automatic defrost keeps the interior clear without manual intervention, and the stainless steel interior is straightforward to wipe down between service periods.

The display features straight double tempered glass panels on the front, providing clear product visibility from the customer side. The front glass swings up for easy cleaning access, and adjustable leg levelers allow stable placement on uneven floor surfaces common in commercial kitchen environments. LED lighting illuminates displayed items without generating excess heat inside the cabinet.

Operating at 110V, 60Hz, and drawing 5.2 amperes at 660 watts, the unit fits standard commercial electrical circuits. The R-290 refrigerant aligns with current energy and environmental standards. Overall dimensions are 26.8" (D) x 59.1" (W) x 47.2" (H). The unit carries ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications. A 1-year warranty is included with each unit.
