- Reliable Power Setup**
 NEMA 5-15P plug and 115 V, 1-phase connection support easy installation.
- Warranty Support**
 Includes a 1-year parts & labor warranty and a 1-year compressor warranty.

PRODUCT OVERVIEW

The IceVault Series IVBBS69 Back Bar Refrigerator provides a 21 cu ft capacity designed for high-volume bars, restaurants, breweries, and beverage stations. Its vinyl-coated black exterior and stainless steel countertop create a durable, professional appearance suited for commercial refrigeration environments. Stainless steel interior walls, floor, and ceiling reinforce long-term durability.

This back bar cooler measures 69" (W) × 28" (D) × 36" (H) and features two solid swing doors with left and right hinges. Inside, four adjustable PVC-coated shelves support organized product placement, while bright LED lighting improves visibility in busy service settings. A keyed lock adds secure access control for bar operations.

Running on 115 V, 1 phase with a 3.5 A draw and 3/7 HP performance, the unit uses an electronic control system to maintain a consistent 33°F to 40°F temperature range. Auto defrost and R-290 refrigerant contribute to efficient operation for commercial drink coolers. The NEMA 5-15P plug fits standard commercial outlets for quick setup.

Certified ETL Sanitation Listed and cETLus, this bar refrigerator meets industry safety and compliance needs. Heavy-duty shelving, solid swing doors, LED lighting, and freestanding installation complete its commercial-grade design. It includes a 1-year parts & labor warranty and a 1-year compressor warranty.
