Top shelf supports up to 420 lb for kitchen tools and equipment.

✓ **Durable Construction**
18 gauge stainless steel supports routine use in restaurant environments.

✓ **Warranty Coverage**
Includes a 90-day warranty by the manufacturer for commercial kitchen use.

PRODUCT OVERVIEW

The ChefPro Series worktable with undershelf is designed for restaurants and commercial kitchen prep areas requiring an extended work surface with storage. It is constructed from stainless steel and measures 72" (L) x 12" (W) x 32" (H). The 18 gauge construction supports routine food prep and equipment placement tasks.

The top shelf supports up to 420 lb, allowing placement of kitchen tools and supplies during prep operations. The undershelf provides additional storage with a capacity of 280 lb and measures 72" in width and 12" in depth, supporting organized storage in commercial kitchen workflows.

The unit includes a fixed undershelf design for storing containers, utensils, and supplies below the work surface. The stainless steel material supports use in food handling environments with regular cleaning. The compact 12-inch depth supports placement along walls or narrow prep areas.

This unit is categorized as a worktable with undershelf for prep and storage tasks. It includes a 90-day warranty by the manufacturer.
