WARRANTY

1 Year Warranty

SPECIAL FEATURES

✓ **Clear Customer Sightlines**

The curved double tempered glass front gives customers and staff an unobstructed view of all displayed baked goods, supporting purchasing decisions on the service floor.

✓ **Stable on Any Floor**

Included leg levelers allow the unit to sit level and steady on uneven or tiled flooring, preventing vibration or tipping in front-of-house areas.

✓ **Certified for Commercial Use**

ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets established safety, sanitation, and energy standards required in commercial kitchen environments.

✓ **Easy Daily Cleaning**

The front glass panel swings up for direct interior access, reducing the time staff spend cleaning the display between service periods in a busy commercial kitchen.

✓ **Low Operating Draw**

At 360 watts and 4 amperes on a standard 110V circuit, the cabinet integrates into existing electrical setups without requiring a dedicated high-draw outlet.

✓ **Covered After Purchase**

The included 1-Year Warranty provides a defined service period, giving buyers a clear timeframe of coverage from the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series Refrigerated Bakery Display Case is a freestanding curved-glass unit designed for bakeries, cafés, and restaurants that need a dedicated cold display for pastries, cakes, and other refrigerated baked goods in a commercial kitchen setting.

The cabinet maintains a temperature range of 36°F to 46°F, making it suitable for displaying cream-filled pastries, cheesecakes, and chilled desserts. The 9.8 cubic foot stainless steel interior offers meaningful holding capacity for a single display unit, while automatic defrost keeps the cabinet operating without manual intervention during service hours.

The curved double tempered glass front provides a clear sightline to displayed items from customer-facing angles, and the front glass swings up to allow straightforward cleaning access between shifts. Leg levelers are included to stabilize the unit on uneven flooring common in older commercial kitchen environments. The 26.8" (D) x 35.4" (W) x 47.2" (H) footprint fits into tighter front-of-house spaces without occupying an entire counter run.

The unit runs on 110V at 360 watts and draws 4 amperes, keeping daily energy demand modest. R-290 refrigerant is used in the sealed system, and the cabinet carries ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications. Built-in LED lighting illuminates displayed items without adding significant heat load inside the cabinet. A 1-Year Warranty is included with the unit.
