1 Year Warranty

SPECIAL FEATURES

- ✓ Pan Capacity**
 The standard top accommodates up to eight 1/6-size pans, keeping cold ingredients organized and accessible at the prep station.
- ✓ Self-Closing Door**
 The self-closing door with a 90-degree stay-open feature allows hands-free access, supporting a smooth workflow during high-paced service.
- ✓ ETL Certified**
 This prep table is ETL Listed and ETL Sanitation Listed, meeting recognized standards for commercial kitchen equipment safety and food-zone sanitation.
- ✓ EC Fan Motor**
 An EC fan motor supports efficient compressor operation, and the evaporation fan stops working automatically when the door is open to help maintain interior temperature.
- ✓ Heavy-Duty Casters**
 Four heavy-duty casters with brakes allow easy repositioning across the kitchen floor and secure locking once the unit is placed.
- ✓ Adjustable Shelf**
 One adjustable epoxy-coated interior shelf provides flexible storage configuration to accommodate containers and food prep supplies of varying sizes.

PRODUCT OVERVIEW

The Frigomax Series 29" Sandwich and Salad Prep Table is a compact, single-door cold prep unit designed for sandwich stations, salad lines, and light cold prep work in commercial kitchens and restaurants with moderate throughput demands.

Built from stainless steel with a silver finish, this freestanding unit measures 30" (L) x 29" (W) x 42 5/8" (H) and holds 7.6 cubic feet of refrigerated storage. The standard top accommodates up to eight 1/6-size pans, keeping ingredients organized and within easy reach during service. One adjustable epoxy-coated shelf inside the cabinet adds flexible interior storage for additional food prep items.

The unit operates at 115V, 60Hz, single-phase power via a NEMA 5-15P plug, drawing 1.7 amperes and running a 1/5 horsepower compressor. Electronic controls manage the temperature range of 33°F to 41°F, suitable for maintaining safe holding temperatures for sandwich and salad ingredients. The EC fan motor supports energy-conscious operation, and the evaporation fan automatically stops working when the door is open to maintain interior temperature stability during access.

The self-closing door with a 90-degree stay-open feature supports hands-free access during busy service periods. Four heavy-duty casters with brakes allow the unit to be repositioned across the kitchen floor and locked securely in place when needed. Cutting boards and compatible pans are available separately. This unit is ETL Listed and ETL Sanitation Listed, meeting recognized commercial food service equipment standards.
