SPECIAL FEATURES

- Large Storage Volume**
 17 cu ft capacity in this commercial back bar refrigerator supports high-demand beverage stocking for busy bar service.
- Clear Product Visibility**
 Glass swing doors on the back bar refrigerator help staff identify inventory quickly during peak hours.
- Flexible Door Access**
 Left/right hinge layout supports smooth workflow based on bar setup.
- Organized Storage**
 Four adjustable shelves allow flexible arrangement for bottles, cans, and mixers inside the bar refrigerator.
- Certified Safety**
 ETL Sanitation Listed and cETLus certifications align with commercial foodservice use.
- Durable Interior Build**
 Stainless steel walls, floor, and ceiling add long-term durability for heavy use in bar environments.
- Efficient Cooling**
 33°F to 40°F performance keeps beverages at ready serving temperature in a glass door back bar cooler.
- Bright Interior**
 LED lighting increases product visibility when arranging or restocking beverages.
- Stable Performance**
 3/7 HP system supports consistent cooling for commercial operations.
- Warranty Support**
 1-year parts & labor plus 1-year compressor warranty provided by the manufacturer.

PRODUCT OVERVIEW

The IceVault Series IVBBG59 Back Bar Refrigerator is built for bars, lounges, and restaurants needing organized storage for beverages and chilled stock. The unit offers 17 cu ft capacity with two glass swing doors for convenient product visibility. A black vinyl-coated steel exterior and stainless steel interior surfaces support durability in bar coolers commercial environments, while the countertop design allows service tools to be placed directly on top.

This glass door back bar cooler measures 60" (W) x 28" (D) x 36" (H), aligning with standard bar counter formats. The refrigerator operates on 115 V, 60 Hz, and 3.5 A using a 3/7 HP system. The temperature range of 33°F to 40°F supports beverage holding for bars and cafés. LED lighting brightens the interior for quick identification, and electronic controls support stable temperature setup.

Additional details include R-290 refrigerant, a NEMA 5-15P plug, auto defrost, and lock protection for stored beverages. The back bar fridge includes four adjustable PVC-coated shelves, heavy-duty construction, and a stainless steel countertop surface. Dual-side hinge placement gives flexibility for installation based on workflow.

This commercial back bar refrigerator is ETL Sanitation Listed and cETLus certified for foodservice environments. The model includes 1-year parts & labor plus a 1-year compressor warranty.
