WARRANTY
1 Year Warranty

SPECIAL FEATURES

- Wide Display Surface**
 At 70.9" wide, the cabinet accommodates a broad spread of bakery items, reducing how frequently staff need to restock during peak service hours.
- Easy Front Cleaning Access**
 The front glass panel swings upward, allowing staff in a commercial kitchen to wipe down the interior display surfaces without fully emptying the case.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications confirm the unit meets recognized safety, sanitation, and energy standards for commercial food service environments.
- Clear Product Visibility**
 The straight double tempered glass front gives customers and staff an unobstructed sightline to all 26.4 cubic feet of displayed items, supporting faster service decisions.
- Standard Circuit Compatible**
 Operating at 110V / 60Hz and 5.8 amperes, this unit connects to typical commercial kitchen electrical outlets without requiring dedicated high-voltage wiring.
- One-Year Coverage Included**
 The 1-Year Warranty provides a defined service period, giving buyers a clear support timeframe after installation in a restaurant or bakery.

PRODUCT OVERVIEW

The Frigomax Series 70.9" Refrigerated Bakery Display Case is a freestanding straight-glass unit designed for restaurants, cafés, patisseries, and bakeries that need reliable cold merchandising on the front counter or service line.

The cabinet holds 26.4 cubic feet of product and maintains a temperature range of 36°F to 46°F, making it suitable for displaying pastries, cakes, sandwiches, and other chilled baked goods. Automatic defrost keeps the interior temperature consistent without manual intervention, and the stainless steel interior supports routine cleaning in a busy commercial kitchen environment.

The double tempered glass door and straight-glass front offer an unobstructed view of displayed items, while the front glass swings up to allow easy cleaning access between service periods. Leg levelers are included for stable placement on uneven flooring. LED lighting illuminates the interior without generating excessive heat near temperature-sensitive items.

The unit runs on 110V / 60Hz and draws 5.8 amperes at 720 watts, fitting standard commercial kitchen electrical circuits. It uses R-290 refrigerant and carries ETL Listed, ETL Sanitation Listed, and DOE Compliant certifications. Overall dimensions are 26.8" (D) x 70.9" (W) x 47.2" (H). The Frigomax Series is covered by a 1-Year Warranty.
