 Supports 4 flavors including chocolate, strawberry, vanilla, and an optional flavor for commercial kitchen beverage service.
- Automatic Dispensing**
 Draw handle and foot pedal dispensing support structured serving operations in restaurant environments.
- Refrigeration System**
 Main refrigeration at 10,000 BTU/hr with additional hopper cooling at 400 BTU/hr supports shake preparation.
- Hopper & Cylinder Capacity**
 20 qt hopper and 7 qt freezing cylinder support continuous beverage production.
- Flexible Cooling Type**
 Air-cooled or water-cooled operation supports different commercial kitchen installation setups.
- Certified & Warranty**
 CE, cULus, and NSF certifications meet commercial standards, and it includes a 1-year warranty by the manufacturer.

PRODUCT OVERVIEW

The ChefPro Series Shake Machine is designed for beverage preparation in commercial kitchen environments. The stainless steel construction with a silver finish supports durability for daily operations. It offers a capacity of 36 cb3 with a floor-style design for placement in service areas.

This unit features a 20 qt hopper capacity and a 7 qt freezing cylinder capacity, supporting shake production. It dispenses automatically through a draw handle or foot pedal. The machine supports 4 flavors including chocolate, strawberry, vanilla, and an optional flavor, supporting menu variety.

It operates on 208–230 V, 23 A, 1 phase, and 50–60 Hz with a 1 HP motor and a breaker requirement of 30 A. The torque control system manages operation during dispensing. The refrigeration system includes 10,000 BTU/hr (R449A) with an additional hopper refrigeration of 400 BTU/hr (R134a).

The unit measures 18.44" (W) x 32" (D) x 59.88" (H) and includes 7.5" floor clearance for placement. It supports air-cooled or water-cooled operation. Certifications include CE, cULus, and NSF. It includes a 1-year warranty by the manufacturer.
