SPECIAL FEATURES

- ✓ **Stainless Construction**
Stainless steel exterior and interior support use in commercial kitchen food handling environments.

✓ **Adjustable Shelving**
Four adjustable and removable wire shelves support organized storage for restaurant operations.

✓ **Certified Use**
ETL Listed, ETL Sanitation, and NSF Listed certifications align with commercial kitchen standards.
- ✓ **Digital Control**
Digital temperature control with LED display reflects the specified control system and temperature range.

✓ **Forced Air Cooling**
Forced air cooling with automatic defrost aligns with continuous refrigeration operation.

✓ **Warranty Coverage**
It includes a 1-year warranty by the manufacturer for parts, labor, and compressor.

PRODUCT OVERVIEW

The CoolEdge Reach-In Refrigerator from the cooledge Series is a freestanding unit designed for restaurants and commercial kitchen environments requiring upright cold storage. It is built with a stainless steel exterior in a silver finish, paired with a stainless steel interior for food handling areas. The unit uses a self-contained refrigeration system with forced air cooling and automatic defrost, supported by a bottom-mounted 3/4 HP compressor.

This reach-in refrigerator features one solid swing door with a right-side hinge and recessed handle for streamlined access. The door includes a self-closing feature, and the interior is designed with rounded corners to support routine cleaning tasks in a commercial kitchen. Access is through doors, and the unit is configured as one section to support organized storage. LED interior lighting and an LED display support visibility and operational reference during service hours.

The interior is equipped with four adjustable and removable wire shelves, allowing layout changes for different food items. Digital temperature control is specified with a temperature range of 33°F to 41°F, managed through a digital control type. The unit is designed to operate in environments with a maximum ambient temperature of 100.4°F. Electrical operation is rated at 115 V, 1 phase, 60 Hz with a NEMA 5-15P plug and a 9 ft power cord.

This cooledge reach-in refrigerator measures 27.5" (L) x 32.62" (W) x 83.5" (H) and is intended for freestanding installation. It includes four 5" casters to support repositioning within a commercial kitchen layout. Certifications include ETL Listed, ETL Sanitation, and NSF Listed. It includes a 1-year warranty by the manufacturer covering parts, labor, and compressor.
