Adjustable height levels support alignment with surrounding kitchen equipment.
- ✓ **ChefPro Series Design**
Part of the ChefPro Series for consistent kitchen equipment layouts.

PRODUCT OVERVIEW

The ChefPro Series Work Table is a stainless steel work table ideal for chefs and foodservice staff in commercial kitchens, restaurants, and food preparation areas. It is built with stainless steel material, which supports routine food handling and cleaning practices in a commercial kitchen environment.

The silver color provides a neutral appearance commonly used in restaurant back-of-house layouts. This work table belongs to the ChefPro Series, identifying it within a coordinated equipment range used in commercial kitchen operations. It features a topshef capacity of 800lbs, providing a defined load rating for items placed on the upper surface during prep tasks.

Constructed from stainless steel with a silver finish, the table supports durability and routine cleaning in commercial environments. It includes an undershef with a 620 lb capacity, supporting organized storage of supplies and tools below the work surface. The overall size measures 60" L x 30" W x 24" H, supporting placement in compact and mid-size commercial kitchen spaces.

The unit includes a backsplash, supporting separation between the work surface and surrounding walls in food preparation areas. The edge style height is 2 in, adding a raised rear edge aligned with standard commercial kitchen layouts. It stands on 4 legs, which supports balanced placement on kitchen floors. It includes a 1-year warranty by the manufacturer, reflecting the stated coverage period.
