1 Year Warranty

SPECIAL FEATURES

- ✓ Curved Glass Visibility**
 The curved glass front gives customers a full, unobstructed view of displayed pastries and deli items, supporting sales on a busy restaurant or bakery counter.
- ✓ Low-Draw Electrical**
 At 340 watts and 3.3 amperes on a standard 110V, 60 Hz circuit, the case fits into most existing commercial kitchen electrical setups without additional wiring.
- ✓ Triple Certification**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications indicate the unit meets recognized food safety, electrical safety, and energy efficiency standards for commercial use.
- ✓ Hands-Free Defrost**
 Automatic defrost cycles keep the 15.8 cu ft cabinet at temperature without requiring staff to stop service for manual defrost tasks during the day.
- ✓ Eco-Friendly Refrigerant**
 R-290 refrigerant has a low global warming potential, making this display case a considered choice for food service operations monitoring their environmental footprint.
- ✓ Covered for a Year**
 The included 1-year warranty gives buyers a defined period of coverage on this freestanding bakery display case, supporting operational continuity in a commercial kitchen.

PRODUCT OVERVIEW

The Frigomax Series 47" curved glass bakery display case is designed for commercial kitchens, bakeries, cafes, and delis that need to present both dry and refrigerated goods in an attractive, accessible counter unit. The curved glass front gives guests a clear view of merchandise while the stainless steel construction stands up to the demands of daily food service.

This freestanding gravity coil deli case operates within a temperature range of 32 to 44.6 degrees Fahrenheit, making it suitable for refrigerated pastries, cakes, prepared foods, and deli items. The 15.8 cubic foot interior provides meaningful holding capacity for a busy service counter, and the sliding glass door configuration allows staff to retrieve items quickly without disrupting adjacent displays.

Automatic defrost keeps the unit running without manual intervention during service hours, reducing the workload on kitchen staff. Running on 110V at 60 Hz and drawing 340 watts and 3.3 amperes, the case is compatible with standard commercial kitchen electrical circuits. Interior LED lighting keeps displayed food items well-lit while contributing to lower energy consumption compared to fluorescent alternatives.

The unit uses R-290 refrigerant, a low-GWP hydrocarbon option recognized for reduced environmental impact. At 47.2 inches wide, 33.5 inches deep, and 47.2 inches tall, the footprint fits into a variety of counter and floor plan configurations. The case carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, and is backed by a 1-year warranty.
