SPECIAL FEATURES

- Wide Display Surface**
 The 77" width gives bakeries and restaurants ample counter-length space to display a large variety of products simultaneously.
- Clear Curved Glass Front**
 The curved glass design allows customers and staff a wide-angle, unobstructed view of all displayed items from the service side of a commercial kitchen counter.
- Certified for Commercial Use**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm this unit meets recognized safety, sanitation, and energy efficiency standards for commercial kitchen environments.
- Large Interior Volume**
 The 42.9 cu ft cabinet holds a generous quantity of baked goods and chilled items, reducing restock interruptions during high-traffic service hours.
- Low-GWP Refrigerant**
 R-290 refrigerant is a low global warming potential choice that supports compliance with current environmental guidelines in commercial food service operations.
- Consistent Cold Zone**
 The gravity coil cooling system holds a precise temperature range of 28.4 to 35.6 degrees Fahrenheit, keeping refrigerated bakery and deli items within a stable, food-safe zone throughout service.

PRODUCT OVERVIEW

The Frigomax Series 77" curved glass bakery display case is a freestanding gravity coil service case designed for commercial kitchens, bakeries, delis, and restaurants that need to display both dry and refrigerated items in a single, large-footprint unit.

With a 42.9 cubic foot interior capacity, this display case holds a substantial volume of baked goods, pastries, chilled desserts, and other food items, reducing how often staff need to restock during a busy service period. The curved glass front gives customers a clear, unobstructed view of displayed items from multiple angles, supporting sales in retail-facing food service environments.

The gravity coil cooling system maintains a temperature range of 28.4 to 35.6 degrees Fahrenheit, making the refrigerated section suitable for temperature-sensitive bakery and deli products. The unit operates on 110V/60Hz power, drawing 13 amperes, and uses R-290 refrigerant, a low-GWP option that aligns with current environmental standards. Overall dimensions are 45.8" (L) x 77" (W) x 48.6" (H), providing a wide display footprint within a manageable cabinet height.

This display case carries ETL Listed and ETL Sanitation Listed certifications, confirming it meets recognized safety and sanitation standards for commercial food handling environments. It is also DOE 2017 Compliant, reflecting adherence to current federal energy efficiency requirements for refrigerated display equipment.
