It features an open wire structure that supports airflow around stored items.
- ✓ **Adjustable Installation**
It includes adjustable height configuration with (4) shelf split sleeves.
- ✓ **NSF Listed Standard**
It is NSF Listed for commercial kitchen sanitation compliance.

PRODUCT OVERVIEW

The ProKitchen Series Wire Shelf is a commercial kitchen storage component designed for restaurants, hotels, and food service facilities requiring organized shelving in storage and preparation areas. It is constructed with zinc-plated wire material in a green color finish with epoxy coating, supporting structured storage use in commercial kitchen environments.

The shelf features an open wire shelf design that supports airflow around stored items. It measures 24 in (L) x 18 in (D) and is designed for adjustable height installation in commercial kitchen storage systems.

It is suitable for moist and humid environments, walk-in coolers, warewashing areas, and dry storage applications. The construction supports airflow design, helping maintain ventilation across stored items in commercial kitchen operations.

The unit supports a weight capacity of 600 lb per shelf and is supplied with (4) shelf split sleeves. It is NSF Listed, supplied as 1/Each, and includes a 1-year warranty for commercial kitchen storage applications.
