### WARRANTY

**Parts & Labor: 1 Year**

**Compressor: 5 Year**

## SPECIAL FEATURES

- ✓ **High Ice Output**  
Produces up to 420 lb of half cube ice every 24 hours for restaurant beverage service and food handling operations.
- ✓ **Adjustable Thickness**  
The adjustable ice thickness feature supports different beverage and hospitality service requirements.
- ✓ **Temperature Range**  
The unit is designed to operate within an ambient temperature range of 41°F to 100°F.
- ✓ **Digital Controls**  
Digital controls and a digital display provide operating information for chefs and commercial kitchen staff.
- ✓ **Self-Clean System**  
The self-clean system supports routine cleaning procedures in commercial kitchen environments.
- ✓ **Certified Coverage**  
The ice machine is certified to cETLus, ETL Sanitation, and NSF standards and includes a 1-year parts and labor warranty by the manufacturer with a 5-year compressor warranty.

## PRODUCT OVERVIEW

The ProKitchen Series Air Cooled Modular Ice Machine Head is designed for restaurants, bars, cafés, and commercial kitchens requiring high-volume ice production. It produces up to 420 lb of half cube ice every 24 hours. The unit features stainless steel construction, an air-cooled condenser, and R290 refrigerant. Its dimensions are 23.4" (W) x 24.5" (D) x 22.3" (H).

The ProKitchen Series Air Cooled Modular Ice Machine Head operates on 115 V, single-phase power at 60 Hz with a power rating of 637 W. It uses a NEMA 5-15P plug and includes a 92-inch power cord. Digital controls and a digital display provide operational information for foodservice staff. The unit is designed for freestanding installation.

The ProKitchen Series Air Cooled Modular Ice Machine Head produces half cube ice and features adjustable ice thickness settings for beverage service applications. A self-clean system is incorporated into the design to support routine maintenance procedures. Foamed-in-place polyurethane insulation is included within the unit structure.

The ProKitchen Series Air Cooled Modular Ice Machine Head operates within an ambient temperature range of 41°F to 100°F and includes a 0.75-inch water inlet connection. The air-cooled condenser is paired with R290 refrigerant as part of the refrigeration system. The unit is certified to cETLus, ETL Sanitation, and NSF standards and includes a 1-year parts and labor warranty by the manufacturer and a 5-year compressor warranty.
