1 Year Warranty

SPECIAL FEATURES

- Open Multideck Access**
 The open multideck design removes the door barrier so customers and staff reach chilled items quickly during peak service hours in a commercial kitchen or retail setting.
- Consistent Temperature Hold**
 Ventilated cooling maintains a temperature range of 30.2 to 44.6 degrees Fahrenheit throughout the cabinet, keeping perishables within safe holding temperatures.
- Three-Way Certification**
 ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications confirm the unit meets established benchmarks for electrical safety, sanitation, and energy efficiency in commercial use.
- Ample Cold Storage**
 A 32.3 cu ft interior accommodates a high volume of perishable food items, reducing how often staff need to restock during busy shifts.
- Low-GWP Refrigerant**
 R-290 refrigerant is a hydrocarbon option with a low global warming potential, aligning the unit with current environmental standards recognized in the food service industry.
- Included Coverage**
 The unit comes with a 1-year warranty, providing a defined period of manufacturer coverage from the date of purchase.

PRODUCT OVERVIEW

The Frigomax Series 77" Horizontal Air Curtain Merchandiser is an open multideck display unit designed for restaurants, convenience stores, and commercial kitchens that need high-visibility refrigerated merchandising without a door barrier.

At 32.3 cubic feet of capacity, this freestanding unit holds a substantial volume of chilled products across its open multideck shelves, while ventilated cooling circulates cold air evenly throughout the cabinet. The temperature range of 30.2 to 44.6 degrees Fahrenheit suits a wide variety of perishable food items commonly displayed in food retail and hospitality settings.

The unit operates on 110V at 60Hz, drawing 31.2 amperes and 1,530 watts, making it compatible with standard commercial electrical configurations. R-290 refrigerant, a low-GWP hydrocarbon option, is used in the refrigeration circuit. Built-in LED lighting illuminates displayed items clearly, and straight side panels give the merchandiser a clean, space-efficient profile. Leg levelers allow stable placement on uneven commercial kitchen or sales floor surfaces.

The Frigomax Series Air Curtain Merchandiser carries ETL Listed, ETL Sanitation Listed, and DOE 2017 Compliant certifications, meeting recognized standards for electrical safety, sanitation, and energy efficiency in commercial food service environments. Overall dimensions are 35.6 inches (D) x 77 inches (W) x 59.1 inches (H), fitting into standard floor display layouts. A 1-year warranty is included with purchase.
